

MARVEL X-MEN TIMELINES

*(1): Used to be Earth-TRN414 (the Temporary Reality Number for the X-Men Revised Timeline) but Cable has travelled back in time in "Deadpool 2" events from Earth-66250, which assuming the given time travel theory in place here would mean that Earth-TRN414 is actually Earth-66250. Cable travel would then create the Earth-41633 alternate timeline which officially is the timeline where "Deadpool 2" events occur.

*(2): The New Mutants tried to connect with Logan, however it causes chronology issues, let's just assume similar events occur in both timelines as Essex Corp is an issue in both of them.
